Conditional Save Modifiers:

+4 racial bonus on all saving throws against mind-affecting effects, paralysis, poison, and stun effects, are not subject to fatigue or exhaustion, and are immune to disease and sleep effects. Androids can never gain morale bonuses, and are immune to fear effects and all emotion-based effects.

+5 Reflex to avoid traps

Conditional Combat Modifiers:

+4 dodge bonus to Armor Class against attacks of opportunity caused when you move out of or within a threatened area. A condition that makes you lose your Dexterity bonus to Armor Class (if any) also makes you lose dodge bonuses. Dodge bonuses stack with each other, unlike most types of bonuses.

Another Day (Ex):Once per day, when the rogue would be reduced to 0 or fewer hit points by a melee attack, she can take a 5-foot step as an immediate action. If the movement takes her out of the reach of the attack, she takes no damage from the attack. The rogue is staggered for 1 round on her next turn. [Paizo Inc. - Advanced Player's Guide, p.131]

The grenade detonates at the beginning of the wielder's next turn, hopefully in the area targeted. When a gas grenade detonates, it creates a 20-foot spread of foul-smelling toxic gas. All creatures in this area of effect must succeed at a DC 14 Fortitude save or become nauseated. This condition lasts as long as the creature is in the cloud and for 1d4+1 rounds after it leaves. The gas created lingers in the area for 5 rounds, and any creature that succeeds at its initial save but remains in the cloud must continue to save each round on its turn. The gas is not thick enough to obscure vision, and is a poison effect. The vapors can be dispersed in 1 round by moderate or stronger wind.Capacity: 1, Usage: disposable | | | |

| Traits | |
|---|--|
| Blood Algorithm (Granted) | [Areinu - My Pathfinder Campaign, pg.19] |
| Your inhumanity extends to your very core. Pain receptors were omitted during your construction, so you gain a +2 trait bonus on saving throws against spells with the pain descriptor (Pathfinder RPG Ultimate Magic 138). Additionally, once per day when you are healed by a spell that targets constructs (such as a make whole spell), you heal 1 extra hit point per level of the spell. (people of river) | |
| Nanite Revival (Granted) | [Paizo Inc. - People of the Stars, p.7] |
| You can instinctively activate your nanites to save your life. Once per day as an immediate action, you can command your nanites to stabilize you while you are dying, even while unconscious or helpless. This does not count as a use of your nanite surge ability. | |
| Numerian Archaeologist (Granted) | [Paizo Publishing - Iron Gods Player's Guide, p.9] |
| Numeria is a land ripe for archaeological exploration, since so many of the strange technological dungeons have been either avoided by the superstitious barbarian tribes or have been locked down by the Technic League, leaving many of them untouched and ripe for exploration. You've studied the strange language associated with these eerie technological ruins, and are eager to start exploring them-you suspect that Torch's namesake is in fact part of a larger buried ruin, and you hope to enter these ruins and learn their original purpose by exploring the caves below town. You gain Androffan as an additional language. In addition, you possess a knack for technological items; when you use a timeworn technological item, roll twice when determining any glitches the item might cause and choose which result to use as your actual result. Talk to your GM for more information about resolving glitches. | |

| Special Attacks | |
|--|---|
| Crippling Strike (Ex) | [Paizo Inc. - Pathfinder Unchained, p.23] |
| You can sneak attack opponents with such precision that your blows weaken and hamper them. An opponent damaged by one of your sneak attacks also takes 2 points of Strength damage. | |
| Offensive Defense (Ex) | [Paizo Inc. - Advanced Player's Guide, p.131] |
| When a rogue with this talent hits a creature with a melee attack that deals sneak attack damage, the rogue gains a +1 dodge bonus to AC for each sneak attack die rolled against that creature for 1 round. | |
| Opportunist (Ex) | [Paizo Inc. - Pathfinder Unchained, p.24] |
| Once per round, you can make an attack of opportunity against an opponent who has just been struck for damage in melee by another character. This attack counts as an attack of opportunity for that round. Even if you have the Combat Reflexes feat, you can't use the Opportunist ability more than once per round. | |
| Sneak Attack (Ex) | [Paizo Inc. - Core Rulebook, p.68] |
| If you can catch an opponent when he is unable to defend himself effectively from your attack, you can strike a vital spot for extra damage. Your attack deals 8d6 points of extra damage anytime your target would be denied a Dexterity bonus to AC, or when you flank your target. Should you score a critical hit with a sneak attack, this extra damage is not multiplied. Ranged attacks can count as sneak attacks only if the target is within 30 feet. With a weapon that deals nonlethal damage, you can make a sneak attack that deals nonlethal damage instead of lethal damage. You cannot use a weapon that deals lethal damage to deal nonlethal damage in a sneak attack, not even with the usual -4 penalty. You must be able to see the target well enough to pick out a vital spot and must be able to reach such a spot. You cannot sneak attack while striking a creature with concealment. | |

| Special Qualities | |
|--|---|
| +2 Dexterity, +2 Intelligence, -2 Charisma | [Paizo Inc. - People of the Stars, p.6] |
| Androids have swift reflexes and are very intelligent, but have difficulty relating to others. | |
| Another Day (Ex) | [Paizo Inc. - Advanced Player's Guide, p.131] |
| Once per day, when the rogue would be reduced to 0 or fewer hit points by a melee attack, she can take a 5-foot step as an immediate action. If the movement takes her out of the reach of the attack, she takes no damage from the attack. The rogue is staggered for 1 round on her next turn. | |

descriptor (Pathfinder RPG Ultimate Magic 138). Additionally, once per day when you are healed by a spell that targets constructs (such as a make whole spell), you heal 1 extra hit point per level of the spell. (people of river)

Canny Observer (Ex) [Paizo Inc. - Advanced Player's Guide, p.130]

When a rogue with this talent makes a Perception check to hear the details of a conversation or to find concealed or secret objects (including doors and traps), she gains a +4 bonus.

Constructed [Paizo Inc. - People of the Stars, p.6]

For the purposes of effects targeting creatures by type (such as a ranger's favored enemy and bane weapons), androids count as both humanoids and constructs. Androids gain a +4 racial bonus on all saving throws against mind-affecting effects, paralysis, poison, and stun effects, are not subject to fatigue or exhaustion, and are immune to disease and sleep effects. Androids can never gain morale bonuses, and are immune to fear effects and all emotion-based effects.

Danger Sense (Ex) [Paizo Inc. - Pathfinder Unchained]

You gain a +5 bonus on Reflex saves to avoid traps and a +5 dodge bonus to AC against attacks by traps. In addition, you gain a +5 bonus on Perception checks to avoid being surprised by a foe. This ability counts as trap sense for any feat or class prerequisite, and can be replaced by any archetype class feature that replaces trap sense. The bonuses gained from this ability stack with those gained from trap sense (if you have trap sense from another class).

Darkvision (Ex) [Paizo Inc. - Bestiary]

Range 60 ft.; Darkvision is the extraordinary ability to see with no light source at all, out to a range specified for the creature. Darkvision is black and white only (colors cannot be discerned). It does not allow characters to see anything that they could not see otherwise-invisible objects are still invisible, and illusions are still visible as what they seem to be. Likewise, darkvision subjects a creature to gaze attacks normally. The presence of light does not spoil darkvision.

Debilitating Injury (Ex) [Paizo Inc. - Pathfinder Unchained]

At 4th level, whenever a rogue deals sneak attack damage to a foe, she can also debilitate the target of her attack, causing it to take a penalty for 1 round (this is in addition to any penalty caused by a rogue talent or other special ability). The rogue can choose to apply any one of the following penalties when the damage is dealt.

Bewildered: The target becomes bewildered, taking a -2 penalty to AC. The target takes an additional -2 penalty to AC against all attacks made by the rogue. At 10th level and 16th level, the penalty to AC against attacks made by the rogue increases by -2 (to a total maximum of -8).

Disoriented: The target takes a -2 penalty on attack rolls. In addition, the target takes an additional -2 penalty on all attack rolls it makes against the rogue. At 10th level and 16th level, the penalty on attack rolls made against the rogue increases by -2 (to a total maximum of -8).

Hampered: All of the target's speeds are reduced by half (to a minimum of 5 feet). In addition, the target cannot take a 5-foot step.

These penalties do not stack with themselves, but additional attacks that deal sneak attack damage extend the duration by 1 round. A creature cannot suffer from more than one penalty from this ability at a time. If a new penalty is applied, the old penalty immediately ends. Any form of healing applied to a target suffering from one of these penalties also removes the penalty.

Emotionless [Paizo Inc. - People of the Stars, p.6]

Androids have problems processing emotions properly, and thus take a -4 penalty on Sense Motive checks.

Evasion (Ex) [Paizo Inc. - Core Rulebook]

You can avoid damage from many area-effect attacks. If you make a successful Reflex saving throw against an attack that normally deals half damage on a successful save, you instead take no damage. Evasion can only be used if you are wearing light armor or no armor. If you are helpless, you do not gain the benefit of evasion.

Exceptional Senses [Paizo Inc. - People of the Stars, p.6]

Androids have darkvision to a range of 60 feet and low-light vision. They also gain a +2 racial bonus on Perception checks.

Finesse Training (Ex) [Paizo Inc. - Pathfinder Unchained, p.20]

At 1st level, a rogue gains Weapon Finesse as a bonus feat. In addition, starting at 3rd level, she can select any one type of weapon that can be used with Weapon Finesse (such as rapiers or daggers). Once this choice is made, it cannot be changed. Whenever she makes a successful melee attack with the selected weapon, she adds her Dexterity modifier instead of her Strength modifier to the damage roll. If any effect would prevent the rogue from adding her Strength modifier to the damage roll, she does not add her Dexterity modifier. The rogue can select a second weapon at 11th level and a third at 19th level.

Improved Uncanny Dodge (Ex) [Paizo Inc. - Core Rulebook]

You can no longer be flanked. This defense denies a rogue the ability to sneak attack you by flanking you, unless the attacker is a rogue of at least level 20.

Languages [Paizo Inc. - People of the Stars, p.6]

Androids begin play speaking Common. Androids with high Intelligence can choose any languages they want (except secret languages, such as Druidic).

Low-Light Vision (Ex) [Paizo Inc. - Bestiary]

You can see x2 as far as humans in low illumination. Characters with low-light vision have eyes that are so sensitive to light that they can see twice as far as normal in dim light. Low-Light Vision is color vision. A spellcaster with low-light vision can read a scroll as long as even the tiniest candle flame is next to her as a source of light. Characters with low-light vision can see outdoors on a moonlit night as well as they can during the day.

Nanite Revival [Paizo Inc. - People of the Stars, p.7]

You can instinctively activate your nanites to save your life. Once per day as an immediate action, you can command your nanites to stabilize you while you are dying, even while unconscious or helpless. This does not count as a use of your nanite surge ability.

Nanite Surge 2/day [Paizo Inc. - People of the Stars, p.6]

An android's body is infused with nanites. Once per day as an immediate action, an android can cause her nanites to surge, granting a bonus equal to 3 + the android's character level on any one d20 roll; this ability must be activated before the roll is made. When an android uses this power, her circuitry-tattoos glow with light equivalent to that of a torch in illumination for 1 round.

Rogue's Edge (Ex) [Paizo Inc. - Pathfinder Unchained]

You have mastered 3 skills beyond those skill's normal boundaries, gaining results that others can only dream about. You gain the skill unlock powers as appropriate for the number of ranks you have.

Skill unlock acrobatics 5 Ranks [Paizo Inc. - Pathfinder Unchained]

You can move at normal speed through a threatened square without provoking an attack of opportunity by increasing the DC of the check by 5 (instead of by 10). You aren't denied your Dexterity bonus when attempting Acrobatics checks with DCs of 20 or lower.

Skill unlock acrobatics 10 Ranks [Paizo Inc. - Pathfinder Unchained]

You can attempt an Acrobatics check at a -10 penalty and use the result as your CMD against trip maneuvers. You can also attempt an Acrobatics check at a -10 penalty in place of a Reflex save to avoid falling. You must choose to use this ability before the trip attempt or Reflex save is rolled. With a successful DC 20 Acrobatics check, you treat an unintentional fall as 10 feet shorter plus 10 feet for every 10 by which you exceed the DC, and treat an intentional fall as 10 feet shorter for every 10 by which you exceed the DC.

Skill unlock acrobatics 15 Ranks [Paizo Inc. - Pathfinder Unchained]

You do not provoke attacks of opportunity when standing up from prone.

Skill unlock disable device 5 Ranks [Paizo Inc. - Pathfinder Unchained]

Reduce the time required to disarm a trap or open a lock by taking a -5 penalty on your Disable Device check for each step by which you reduce the time required: 2d4 rounds, 1d4 rounds, 1 round, a standard action, a move action, a swift action.

Skill unlock disable device 10 Ranks [Paizo Inc. - Pathfinder Unchained]

You can disarm magical traps at a -10 penalty even if you lack the trapfinding ability. If you possess the trapfinding ability, when attempting to disable magic traps, you never trigger them, even if you perform the trigger action (such as looking at a symbol). If you fail the check, you can still trigger the trap, and you can't use this ability to bypass it.

Skill unlock disable device 15 Ranks [Paizo Inc. - Pathfinder Unchained]

When attacked by a trap, you can attempt a Disable Device check as an immediate action (adding your trap sense bonus, if any) opposed by the trap's attack roll or its save DC. If you succeed, you take half damage (or no damage if you exceed the DC by at least 10).

Slow Reactions (Ex) [Paizo Inc. - Core Rulebook, p.68]

Opponents damaged by your sneak attack can't make attacks of opportunity for 1 round.

Slow Reactions* (Ex) [Paizo Inc. - Pathfinder Unchained, p.22]

Opponents damaged by your sneak attack can't make attacks of opportunity for 1 round.

Trapfinding (Ex) [Paizo Inc. - Pathfinder Unchained, p.20]

You add +8 to Perception skill checks made to locate traps and to Disable Device skill checks. You can use the Disable Device skill to disarm magical traps.

Uncanny Dodge (Ex) [Paizo Inc. - Core Rulebook]

You can react to danger before your senses would normally allow you to do so. You cannot be caught flat-footed, nor do you lose your Dexterity bonus to AC if the attacker is invisible. You still lose your Dexterity bonus to AC if immobilized. You can still lose your Dexterity bonus to AC if an opponent successfully uses the feint action against you.

Unwitting Ally (Ex) [Paizo Inc. - Pathfinder Unchained, p.71]

A rogue with this talent can spend a swift action to attempt to make an opponent act like an ally for purposes of providing a flank until the beginning of the rogue's next turn. The opponent must be able to hear and see the rogue, and the rogue must succeed at a Bluff check opposed by the opponent's Sense Motive. If the check succeeds, the opponent acts as an ally for the purpose of providing a flank. Whether or not the check

succeeds, the rogue cannot use this trick again on the same opponent for the next 24 hours. If the rogue fails the check by 5 or more, she cannot use the unwitting ally ability on any opponent within line of sight of the failed attempt for 24 hours.
