Activating a scatterlight suit is a standard action; once activated, the suit diffuses and blurs light reflected from its surface, making the wearer appear hazy and indistinct. While active, a scatterlight suit increases the wearer's touch AC by a variable amount-this bonus is an armor bonus, but does not increase the wearer's normal or flatfooted AC beyond the scatterlight suit's baseline armor bonus of +1. This bonus to touch AC only applies to attacks made by beam weapons and rays-it does not provide additional protection to other touch attacks., Touch AC Bonus +6

Envoy's Mouthpiece	Carried	1	1 / 2,000
When created, an envoy's mouthpiece is encoded with a specific single language. Whenever the language is spoken within 30 feet of the wearer, the mouthpiece translates that language into Androffan. In addition, any words spoken in Androffan by the wearer are transformed by the mouthpiece into the encoded language, allowing conversation to take place between the wearer and speakers of the encoded language. An envoy's mouthpiece cannot be used to translate languages other than the one it has been programmed to translate, but a newly created mouthpiece could, in theory, translate languages into something other than Androffan. An envoy's mouthpiece automatically records any words spoken through it, allowing anything said through the device to be replayed through its earpiece at the touch of a button on the lower right side. Up to 30 continuous hours can be recorded in this manner. Holding the button down for a full round erases any currently stored conversations.Capacity: 10, Usage: 1/hour

Skillchip (Mark I/Skillchip Skill (Knowledge (Engineering)))	Saddle (Pack)	1	0 / 400
Power Relay	Saddle (Pack)	1	50 / 0
A power relay consumes 10 charges when it is activated (this is a full-round action), after which it automatically links to the closest generator within 1,000 feet that has an available yield. This distance is halved for every 5 feet of metal or 20 feet of solid stone between the generator and the power relay. The power relay consumes 1 charge of the generator's available yield per hour to maintain its own power supplies, and can be programmed to transmit any remaining charges of available yield to any object capable of receiving broadcast power, to a maximum distance of 150 miles. This distance is halved for every 5 feet of metal or 20 feet of solid stone between the generator and the power relay. Power transmitted by this device is lost unless the device is programmed to transmit to a specific target capable of accepting a charge in range. Before a power relay can transmit, it must be linked to the target of its transmission to establish the transmission protocols. This consumes 10 charges and takes 1 minute to complete. Once completed, the distance between the power relay and the target of its transmissions can vary up to its maximum range. A small screen on the side of the power relay provides constant updates on the link, including bearings, distances, and the nature of the object to which it is linked. This device essentially functions as a power generator that provides an hourly yield of charges to its target. For example, if a power relay that provided a yield of 40 charges was linked to a laser pistol, that laser pistol could be fired 40 times per hour without needing an additional charge. Power relays can only function a limited number of times before their delicate internal mechanisms burn out. Each time a power relay is used to initiate a new energy transfer, there's a cumulative 2% chance it burns out and becomes useless. Once a new transfer begins, a power relay can maintain that link between the generator and its target indefinitely (as long as there's always an available yield of at least 1 charge from the generator to keep itself powered). Note that a power relay has built-in signal boosters, and thus the range of its transmissions cannot be further increased through the use of additional signal boosters.Capacity: 10, usage: See text

Archetypes	
Techslinger	[Paizo Inc. - Technology Guide, p.12]
Techslingers spurn unreliable gunpowder weapons in favor of high-tech armaments. They learn to master the quirks of timeworn technology and methods ofkeeping weapons charged in a primitive world. Techslingers still start play with the black powder blunderbuss, pistol, or rifle granted by the gunsmith class ability, but they gain specialized powers for use after they gain weapons of advanced technology. A techslinger has the following class features.	

Traits	
Mathematical Prodigy (Knowledge (Engineering))	[Paizo Inc. - Advanced Player's Guide, p.329]

Mathematics has always come easily for you, and you have always been able to "see the math" in the physical and magical world. You gain a +1 trait bonus on Knowledge (Arcana) and Knowledge (Engineering) checks, and Knowledge (Engineering) is always a class skill for you.

Stargazer	[Paizo Publishing - Iron Gods Player's Guide, p.9]
-----------	--

They say the strange technological ruins scattered throughout Numeria came from the skies several thousand years ago. The concept of life on other planets far beyond Golarion has always fascinated you, and you've long hoped to learn more about what life on those other planets may have been like. You've heard stories about the strange alien creatures found in Numerian dungeons and hope to learn all you can about them-perhaps some of these aliens can be found in the caverns below Torch! You gain a +2 trait bonus on Knowledge checks to identify alien monsters' abilities and weaknesses. In addition, you gain a +1 trait bonus on Knowledge (geography) checks, and this skill is a class skill for you. You are treated as if you possessed the Technologist feat for the purposes of resolving checks to identify an alien creature using a Knowledge skill and for all Knowledge (geography) checks. If you already possess the Technologist feat, then your trait bonus on Knowledge (geography) checks increases to +3.

Special Qualities	
Bonus Feat	[Paizo Inc. - Core Rulebook, p.27]
Humans select one extra feat at 1st level.	
Bonus Feats	[Paizo Inc. - Technology Guide, p.13]

:At 4th level, and every four levels thereafter, a gunslinger gains a bonus feat in addition to those gained by normal advancement. These bonus feats must be combat or grit feats. A techslinger can select Technologist as a bonus feat, even though it's neither a combat nor a grit feat.	
Bonus Grit (11x)	[Paizo Inc. - Advanced Race Guide, p.43]
Gunslinger: Add +1/4 to the number of grit points in the gunslinger's grit pool.	
Gunslinger Battered Gun (Battered Pistol)	[Paizo Inc. - Ultimate Combat]
Gunsmith	[Paizo Inc. - Ultimate Combat, p.9]
At 1st level, a gunslinger gains one of the following firearms of her choice: blunderbuss, musket, or pistol. Her starting weapon is battered, and only she knows how to use it properly. All other creatures treat her gun as if it had the broken condition. If the weapon already has the broken condition, it does not work at all for anyone else trying to use it. This starting weapon can only be sold for scrap (it's worth 4d10 gp when sold). The gunslinger also gains Gunsmithing as a bonus feat.	
Grit (Ex)	[Paizo Inc. - Ultimate Combat, p.9]
A gunslinger makes her mark upon the world with daring deeds. Some gunslingers claim they belong to a mystical way of the gun, but it's more likely that the volatile nature of firearms simply prunes the unlucky and careless from their ranks. Whatever the reason, all gunslingers have grit. In game terms, grit is a fluctuating measure of a gunslinger's ability to perform amazing actions in combat. At the start of each day, a gunslinger gains 6 grit points. Her grit goes up or down throughout the day, but usually cannot go higher than 6, though some feats and magic items may affect this maximum. A gunslinger spends grit to accomplish deeds, and regains grit in the following ways.	
Critical Hit with a Firearm ~ Each time the gunslinger confirms a critical hit with a firearm attack while in the heat of combat, she regains 1 grit point. Confirming a critical hit on a helpless or unaware creature or on a creature that has fewer Hit Dice than half the gunslinger's character level does not restore grit.	
Killing Blow with a Firearm ~ When the gunslinger reduces a creature to 0 or fewer hit points with a firearm attack while in the heat of combat, she regains 1 grit point. Destroying an unattended object, reducing a helpless or unaware creature to 0 or fewer hit points, or reducing a creature that has fewer Hit Dice than half the gunslinger's character level to 0 or fewer hit points does not restore any grit.	
Nimble (Ex)	[Paizo Inc. - Ultimate Combat, p.12]
Starting at 2nd level, a gunslinger gains a +1 dodge bonus to AC while wearing light or no armor. Anything that causes the gunslinger to lose her Dexterity bonus to AC also causes the gunslinger to lose this dodge bonus. This bonus increases by +1 for every four levels beyond 2nd level (to a maximum of +5 at 20th level).	
Deeds	[Paizo Inc. - Ultimate Combat, p.10]
Gunslingers spend grit points to accomplish deeds. Most deeds grant the gunslinger some momentary bonus or effect, but there are some that provide longerlasting effects. Some deeds stay in effect as long as the gunslinger has at least 1 grit point. The following is the list of base gunslinger deeds. A gunslinger can only perform deeds of her level or lower. Unless otherwise noted, a deed can be performed multiple successive times, as long as the appropriate amount of grit is spent to perform the deed.	
Covet Charge (Ex)	[Paizo Inc. - Technology Guide, p.13]
At 1st level, a techslinger can spend 1 grit point to use 1 charge fewer than normal when firing a technological weapon (minimum 0), as long as the weapon has enough charges remaining to be fired at least once. This deed replaces deadeye.	
Gunslinger's Dodge (Ex)	[Paizo Inc. - Ultimate Combat, p.10]
At 1st level, the gunslinger gains an uncanny knack for getting out of the way of ranged attacks. When a ranged attack is made against the gunslinger, she can spend 1 grit point to move 5 feet as an immediate action; doing so grants the gunslinger a +2 bonus to AC against the triggering attack. This movement is not a 5-foot step, and provokes attacks of opportunity. Alternatively, the gunslinger can drop prone to gain a +4 bonus to AC against the triggering attack. The gunslinger can only perform this deed while wearing medium or light armor, and while carrying no more than a light load.	
Reliable (Ex)	[Paizo Inc. - Technology Guide, p.13]
At 1st level, a techslinger can spend 1 grit point as a free action to prevent a timeworn firearm from glitching. This deed replaces quick clear.	
Gunslinger Initiative (Ex)	[Paizo Inc. - Ultimate Combat, p.10]
At 3rd level, as long as the gunslinger has at least 1 grit point, she gains the following benefits. First, she gains a +2 bonus on initiative checks. Furthermore, if she has the Quick Draw feat, her hands are free and unrestrained, and the firearm is not hidden, she can draw a single firearm as part of the initiative check.	
Pistol-Whip (Ex)	[Paizo Inc. - Ultimate Combat, p.11]
At 3rd level, the gunslinger can make a surprise melee attack with the butt or handle of her firearm as a standard action. When she does, she is considered to be proficient with the firearm as a melee weapon and gains a bonus on the attack and damage rolls equal to the enhancement bonus of the firearm. The damage dealt by the pistol-whip is of the bludgeoning type, and is determined by the size of the	

firearm. One-handed firearms deal 1d6 points of damage (1d4 if wielded by Small creatures) and twohanded firearms deal 1d10 points of damage (1d8 if wielded by Small creatures). Regardless of the gunslinger's size, the critical multiplier of this attack is 20/?2. If the attack hits, the gunslinger can make a combat maneuver check to knock the target prone as a free action. Performing this deed costs 1 grit point.	
Utility Shot (Ex)	[Paizo Inc. - Ultimate Combat, p.11]
At 3rd level, if the gunslinger has at least 1 grit point, she can perform all of the following utility shots. Each utility shot can be applied to any single attack with a firearm, but the gunslinger must declare the utility shot she is using before firing the shot.	
Blast Lock: The gunslinger makes an attack roll against a lock within the first range increment of her firearm. A Diminutive lock usually has AC 7, and larger locks have a lower AC. The lock gains a bonus to its AC against this attack based on its quality. A simple lock has a +10 bonus to AC, an average lock has a +15 bonus to AC, a good lock has a +20 bonus to AC, and a superior lock has a +30 bonus to AC. Arcane lock grants a +10 bonus to the AC of a lock against this attack. On a hit, the lock is destroyed, and the object can be opened as if it were unlocked. On a miss, the lock is destroyed, but the object is jammed and still considered locked. It can still be unlocked by successfully performing this deed, by using the Disable Device skill, or with the break DC, though the DC for either break or Disable Device or the AC increases by 10. A key, combination, or similar mechanical method of unlocking the lock no longer works, though knock can still be employed to bypass the lock, and the creator of an arcane lock can still bypass the wards of that spell.	
Scoot Unattended Object: The gunslinger makes an attack roll against a Tiny or smaller unattended object within the first range increment of her firearm. A Tiny unattended object has an AC of 5, a Diminutive unattended object has an AC of 7, and a Fine unattended object has an AC of 11. On a hit, the gunslinger does not damage the object with the shot, but can move it up to 15 feet farther away from the shot's origin. On a miss, she damages the object normally.	
Stop Bleeding: The gunslinger makes a firearm attack and then presses the hot barrel against herself or an adjacent creature to staunch a bleeding wound. Instead of dealing damage, the shot ends a single bleed condition affecting the creature. The gunslinger does not have to make an attack roll when performing the deed in this way; she can instead shoot the firearm into the air, but that shot still uses up ammunition normally	
Dead Shot (Ex)	[Paizo Inc. - Ultimate Combat, p.11]
At 7th level, as a full-round action, the gunslinger can take careful aim and pool all of her attack potential into a single, deadly shot. When she does this, sheshoots the firearm at a single target, but makes as many attack rolls as she can, based on her base attack bonus. She makes the attack rolls in order from highest bonus to lowest, as if she were making a full attack. If any of the attack rolls hit the target, the gunslinger's single attack is considered to have hit. For each additional successful attack roll beyond the first, the gunslinger increases the damage of the shot by the base damage dice of the firearm. For instance, if a 7thlevel gunslinger firing a musket hits with both attacks, she does 2d12 points of damage with the shot, instead of 1d12 points of damage, before adding any damage modifiers. Precision damage and extra damage from weapon special abilities (such as flaming) are added with damage modifiers and are not increased by this deed. If one or more rolls are critical threats, she confirms the critical once using her highest base attack bonus -5. For each critical threat beyond the first, she reduces this penalty by 1 (to a maximum of 0). The gunslinger only misfires on a dead shot if all the attack rolls are misfires. She cannot perform this deed with a blunderbuss or other scatter weapon when attacking creatures in a cone. The gunslinger must spend 1 grit point to perform this deed.	
Startling Shot (Ex)	[Paizo Inc. - Ultimate Combat, p.11]
At 7th level, a gunslinger with least 1 grit point can spend a standard action to purposely miss a creature that she could normally hit with a firearm attack. When she does, that creature becomes flat-footed until the start of its next turn.	
Targeting (Ex)	[Paizo Inc. - Ultimate Combat, p.11]
At 7th level, as a full-round action, the gunslinger can make a single firearm attack and choose part of the body to target. She gains the following effects depending on the part of the body targeted. If a creature does not have one of the listed body locations, that part cannot be targeted. This deed costs 1 grit point to perform no matter which part of the creature she targets. Creatures that are immune to sneak attacks are immune to these effects.	
Arms - On a hit, the target takes no damage from the hit but drops one carried item of the gunslinger's choice, even if the item is wielded with two hands. Items held in a locked gauntlet are not dropped on a hit.	
Head - On a hit, the target is damaged normally, and is also confused for 1 round. This is a mind-affecting effect.	
Legs - On a hit, the target is damaged normally and knocked prone. Creatures that have four or more legs or that are immune to trip attacks are immune to this effect.	
Torso - Targeting the torso threatens a critical on a 19-20.	
Wings - On a hit, the target is damaged normally, and must make a DC 20 Fly check or fall 20 ft.	
Bleeding Wound (Ex)	[Paizo Inc. - Ultimate Combat, p.12]
At 11th level, when the gunslinger hits a living creature with a firearm attack, she can spend 1 grit point as a free action to have that attack deal extra bleed damage. The amount of bleed damage is equal to the gunslinger's Dexterity modifier. Alternatively, the gunslinger can spend 2 grit points to deal 1 point of Strength, Dexterity, or Constitution bleed damage (gunslinger's choice) instead.	

Creatures that are immune to sneak attacks are also immune to these types of bleed damage.	
Charge Recycling (Ex)	[Paizo Inc. - Technology Guide, p.13]
At 11th level, by spending 1 grit point, a techslinger can grant 1 temporary charge to a technological firearm, even if the firearm normally can no longer be recharged. This charge must be used within 1 hour or it fades. The techslinger can grant temporary charges to multiple firearms as long as she has enough grit, but temporary charges do not stack with themselves in the same firearm. At 15th level, the techslinger can grant 2 temporary charges when she uses this deed, and at 19th level, she can grant 3 temporary charges. This deed replaces expert loading.	
Heavy Weaponry Deeds (Ex)	[Paizo Inc. - Technology Guide, p.13]
At 11th level, as long as the techslinger has at least 1 grit point, she can treat a heavy weapon as a firearm for the purpose of using deeds.	
Lightning Reload (Ex)	[Paizo Inc. - Ultimate Combat, p.12]
At 11th level, as long as the gunslinger has at least 1 grit point, she can reload a single barrel of a one-handed or two-handed firearm as a swift action once per round. If she has the Rapid Reload feat or is using an alchemical cartridge (or both), she can reload a single barrel of the weapon as a free action each round instead. Furthermore, using this deed does not provoke attacks of opportunity.	
Skilled	[Paizo Inc. - Core Rulebook, p.27]
Humans gain an additional skill rank at first level and one additional rank whenever they gain a level.	
Technic Training (Ex)	[Paizo Inc. - Technology Guide, p.13]
Starting at 5th level, a techslinger can select one specific type of advanced technology firearm (such as a laser pistol, mindrender, stun gun, or zero rifle). Thereafter, she gains a bonus equal to her Dexterity modifier on damage rolls when using that firearm. Furthermore, she treats all detrimental glitches of timeworn versions of her selected firearm as a result of no glitch. (She can retain the effects of beneficial glitches if she wishes.) Every 4 levels thereafter (9th, 13th, and 17th), the techslinger selects another type of advanced technology firearm, gaining these bonuses for those types as well. This ability replaces gun training.	
Technic Training Choice (Inferno Pistol, Laser Pistol)	[Paizo Inc. - Technology Guide, p.13]

Feats	
Craft Technological Arms and Armor	[Paizo Inc. - Technology Guide, p.6]
You can build technological weapons and armor.	
You can create technological weapons or armor. Creating a technological weapon or suit of armor takes 1 day for every 1,000 gp in the item's price. To create the object, you must use up raw materials costing half of this total price. See Crafting High-Tech Items on page 16 for more information. You can also repair a broken technological weapon or suit of armor if it is one that you could make. Doing so costs half the raw materials and half the time it would take to craft that item from scratch.	
Craft Technological Item	[Paizo Inc. - Technology Guide, p.6]
You can craft technological gear and items.	
You can create technological gear. Creating a piece of technological gear takes 1 day for every 1,000 gp in the item's price. To create the object, you must use up raw materials costing half of this total price. See Crafting HighTech Items on page 16 for more information. You can also repair a broken technological item if it is one that you could make. Doing so costs half the raw materials and half the time it would take to craft that item from scratch.	
Deadly Aim	[Paizo Inc. - Core Rulebook, p.121]
You can make exceptionally deadly ranged attacks by pinpointing a foe's weak spot, at the expense of making the attack less likely to succeed.	
You can choose to take a -4 penalty on all ranged attack rolls to gain a +8 bonus on all ranged damage rolls. You must choose to use this feat before making an attack roll and its effects last until your next turn. The bonus damage does not apply to touch attacks or effects that do not deal hit point damage.	
Dodge	[Paizo Inc. - Core Rulebook, p.122]
Your training and reflexes allow you to react swiftly to avoid an opponent's attack.	
You gain a +1 dodge bonus to your AC. A condition that makes you lose your Dex bonus to AC also makes you lose the benefits of this feat.	
Extra Grit	[Paizo Inc. - Ultimate Combat, p.100]
You have more grit than the ordinary gunslinger.	
You gain 2 extra grit points at the start of each day, and your maximum grit increases by 2.	
[Normal] If you are a gunslinger, you gain your Wisdom modifier in grit points at the start of each day, which is also your maximum grit. If you have the Amateur Gunslinger feat, you gain 1 grit point at the start of each day, and your maximum grit is equal to your Wisdom modifier.	
[Special] If you possess levels in the gunslinger class, you can take this feat multiple times.	

Point-Blank Shot	[Paizo Inc. - Core Rulebook, p.131]
You are especially accurate when making ranged attacks against close target.	
You get a +1 bonus on attack and damage rolls with ranged weapons at ranges of up to 30 feet.	
Precise Shot	[Paizo Inc. - Core Rulebook, p.131]
You are adept at firing ranged attacks into melee.	
You can shoot or throw ranged weapons at an opponent engaged in melee without taking the standard -4 penalty on your attack roll.	
Rapid Shot	[Paizo Inc. - Core Rulebook, p.132]
You can make an additional ranged attack.	
When making a full-attack action with a ranged weapon, you can fire one additional time this round. All of your attack rolls take a -2 penalty when using Rapid Shot.	
Scavenger's Luck	[Paizo Inc. - Technology Guide, p.7]
You coax better behavior out of timeworn technology.	
When your check for using a piece of timeworn technology results in a glitch, you can roll again. You must choose to reroll before determining the specific glitch, and must take the second result, even if it's worse. When you use timeworn technology, it doesn't automatically glitch on a natural 1.	
Technologist	[Paizo Inc. - Technology Guide, p.7]
You are familiar with the basic mechanics of technology.	
You are considered to be trained in any skill used against a technology-based subject. If the skill in question requires training to use even against non-technological subjects, you must still have ranks in that skill in order to gain the benefit of Technologist. Normal: You treat all skill checks made against technology as if they were untrained skill checks. This may mean that you cannot attempt certain skill checks, even if you possess ranks in the skill in question.	
Gunsmithing	[Paizo Inc. - Ultimate Combat, p.103]
You know the secrets of repairing and restoring firearms.	
If you have access to a gunsmith's kit, you can create and restore firearms, craft bullets, and mix black powder for all types of firearms. You do not need to make a Craft check to create firearms and ammunition or to restore firearms.	
Crafting Firearms - You can craft any early firearm for a cost in raw materials equal to half the price of the firearm. At your GM's discretion, you can craft advanced firearms for a cost in raw materials equal to half the price of the firearm. Crafting a firearm in this way takes 1 day of work for every 1,000 gp of the firearm's price (minimum 1 day).	
Crafting Ammunition - You can craft bullets, pellets, and black powder for a cost in raw materials equal to 10% of the price. If you have at least 1 rank in Craft (alchemy), you can craft alchemical cartridges for a cost in raw materials equal to half the price of the cartridge. At your GM's discretion, you can craft metal cartridges for a cost in raw materials equal to half the cost of the cartridge. Crafting bullets, black powder, or cartridges takes 1 day of work for every 1,000 gp of ammunition (minimum 1 day).	
Restoring a Broken Firearm - Each day, with an hour's worth of work, you can use this feat to repair a single firearm with the broken condition. You can take time during a rest period to restore a broken firearm with this feat.	
[Special] If you are a gunslinger, this feat grants the following additional benefit. You can use this feat to repair and restore your initial, battered weapon. It costs 300 gp and 1 day of work to upgrade it to a masterwork firearm of its type.
